Jamie,

Here are my edits and corrections. Sorry it took me a bit to write them up. Looks pretty good. Let me know when you are closer and included all comments so I can get it into clearance here.

Thanks,
Mark

Great! I've already made some edits/corrections and I'll add yours to the newest version. I haven't heard back from Chris, but I'm sure he's still dealing with recovering from the move. I have a CC with him tomorrow on a different topic and will make sure he knows he's the slow member of the editorial group!

I hope that you had a nice vacation.

Jamie

Jamie,

I have read the paper and have some comments and edits. I just returned to the office today. I will be sending them along as soon as I can type them up.

Mark'

Hi Mark,

I hope that you're out enjoying the cloudy holiday! When you get to the point of editing our under paper, could you email me or include in your edits the source of the compound? Blake sent me his edits and he made the observation that we probably need that information!

Happy fourth.

Jamie
